

# DEDICATED INTERNET ACCESS

INTERNET YOU CAN COUNT ON FOR MORE  
CONSISTENT SPEEDS AND GREATER AGILITY.

OUTSTANDING RELIABILITY FROM THE ULTIMATE INTERNET CONNECTION

## INTERNET FOR THE TOUGHEST DEMANDS,

Elsuhd Dedicated Internet Access (DIA) is a fast and reliable service for your business that connects you directly to Elsuhd's IP backbone. The service comes with dedicated bandwidth and symmetrical access speeds, making it perfect for website connectivity, business internet use or connecting remote or third party sites.

With the growing demand for Cloud-based services, your company's link to the internet has become crucial to its business continuity. Without dedicated internet access, you run the risk of losing customers or access internet connection or if your website to online applications with a failed internet connection or if your website is hosted on-site. Elsuhd Dedicated Internet Access allows large and small enterprises to compete on an even playing field without worrying about slow web applications and browsing. Businesses can feel confident that their customer service will not be affected by poor performing websites or cloud applications.

## DEDICATED SYMMETRICAL CIRCUITS,

Most companies that require high-speed internet access need a dedicated, uncontended and symmetrical service to ensure adequate bandwidth is available when they need it.

All Elsuhd Dedicated Internet Access options are symmetrical, allowing you to utilize the full available bandwidth for either upstream or downstream traffic. They also have no restrictions on monthly usage or additional charges for large files so customers can benefit from a cost-effective service that reduces bottlenecks and improves your internet experience.

## NEW POSSIBILITIES

TO FIT YOUR WORK SITUATION.

## DISCOVER THE BENEFITS

- Get high-speed, business grade Internet with guaranteed bandwidth
- Enhance availability and quality using redundant IP network infrastructure
- Take advantage of multiple access types to connect locations
- Choose from scalable bandwidth options from 1 Mbps to 1 Gbps
- Benefit from web-based tools that monitor bandwidth capacity

When internet connectivity is the cornerstone of your business, nothing less than a 99% availability SLA and scorching speeds up to 1Gbps will do.

## KEY FEATURES

### AN UNCONTENDED SERVICE

Dedicated circuits that provide high-speed, always-on and uncontended internet access allowing you to get 100% of the bandwidth you are paying for.

### THE SPEED YOU NEED

Choose the connection speed that suits your business today, with the opportunity to scale up and a burst option that provides extra bandwidth to meet unexpected peaks in demand.

### CONFIDENTLY CONNECTED

Business-critical applications stay connected thanks to 24/7 support and service monitoring spotting problems before they start.

### UNLIMITED ACCESS

There are no restrictions on monthly usage or additional charges for large files, making it ideal for hosting your own website, managing email efficiency or supporting business-critical applications.

## EXCEPTIONAL FEATURE

Availability	99% Availability guaranteed via second connection, two separate lines with independent power supply
Access Circuit	Depending on requirements, transfer speeds of up to 1 Gbps for downloads and 1 Gbps for uploads can be selected
Internet Features	IP Address Blocks: Portable and non-transferable IPv4 and IPv6 addresses
	- Routing: Static, Border Gateway Protocol (BGP4) for managing multiple, high-speed DIA connections to the Internet with default route, BGP with full routing table
	- Network Access Translation (NAT) to allow conservation of scarce IP addresses
	Domain Name Service transfers/registrations, authoritative DNS, DNS caching, SMTP mail
Security Features	Maximum security with the add-on options DNSSEC and DDoS Protection Service, Managed Firewall
Service Support	Proactive monitoring for unavailability and 24/7 incident management

## WHY IT'S WORTH TO CHOOSE US?

We are committed to providing our customers with a truly fast, reliable and exceptional service. With Dedicated Internet Access from Elsuhd Network, businesses that have outgrown or have greater demands that cannot be accommodated can benefit from our comprehensive portfolio of Connect, Communicate and Collaborate services. We can help businesses consolidate communications, simplify supplier management and provide tangible cost savings.
